

## For flat-head printers

AW1 is a wax quality ribbon developed for, and best suited to, general purpose label printing, offering heat resistance up to 60°C (140°F). This product provides good, clear printed images, text and barcodes on to a wide range of label stocks, from synthetics to paper – uncoated papers particularly, and with a blackness above 2.1 (ODR). The back coating of the AW1, as with all Toshiba approved ribbons, offers the best in printhead protection.

Toshiba AW1 ribbons – cost-effective labelling starts here.

## Available for

B-442	B-452	B-SV4T	
B-443	B-852	B-SA4	

## Characteristics

- Suitable for all kinds of paper substrates
- Excellent blackness
- Very good sensitivity
- Available in colours

## Specifications

Ink	Type	Wax
	Melting point*	65°C
Carrier	Type	Polyester film
	Thickness	4.5 ± 0.3 µm
	Tensile strength*	> 300 N/mm <sup>2</sup> (MD)
Back Coating	Silicone product based	Low coefficient of friction*: Kd < 0.2
Optical Density*	Optical Density by Reflection (ODR)	> 1.9 (Macbeth TR 927)
Colours	● Black, ○ White, ● Yellow (Process yellow C), ● Magenta (Process magenta C), ● Cyan (Process cyan C), ● Brown (478 C), ● Red (185 C), ● Day-glo (805 C), ● Light green (Green C), ● Blue (286 C), ● Grey (Warm grey 9 C), ● Gold (874 C)

## Always choose Toshiba ribbons for Toshiba printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

This commitment to quality and reliability is what you would expect from Toshiba as the biggest thermal transfer ribbon distributor in Europe.

### Other approved ribbon types available

Standard applications	● Wax	● Super wax resin
	● Wax resin	● Full resin
Specialist resins for	● Wash-care & textile labelling	● Extreme automotive and aviation environments
	● Harsh chemical and industrial uses	

Colour ribbons are also available in all qualities including HazChem orange.
