

# B-452-HS

Super-high Resolution Printer

## Highest Thermal Printing Quality

The B-452-HS printer has a 600 dpi print-head, coupled with TOSHIBA TEC's unique pulse control circuitry. High definition characters can be printed, even down to 2 point character text. It is ideally suited to those thermal transfer applications requiring very high definition text and barcodes for very small or detailed labels. Perfect uses include electrical component marking, pharmaceutical labelling, and jewellery pricing.

## Incredible Accuracy

The B-452-HS can print on to labels as small as 5 mm high, with a super-accurate print position of within  $\pm 0.5$  mm on approved media. It supports all popular barcode symbologies.

# B-452-HS

## Options

The B-452-HS can be enhanced with:

<b>Cutter module</b>	A guillotine cutter to physically separate labels or continuous media immediately after printing.
<b>Strip module</b>	Peels the label from its backing paper and presents it ready for immediate application.
<b>Stand-alone keyboard</b>	A unit that can be attached to the printer, call up pre-programmed label formats and enter data to print labels without requiring connection to a computer. It also can be used for viewing and setting the on-board diagnostics.
<b>Fonts</b>	20 downloadable TrueType Fonts.
